In-House Training Courses

Get Grant and the Fundraising Experts. We provide practical, friendly support that organisations can put into practice to increase their fundraising confidence and success.

We provide in-house training opportunities for organisations looking to give their people practical support to improve their fundraising skills and knowledge. We build on our years of funding experience and expertise to deliver flexible in-house training sessions tailored by our Fundraising Experts to the needs of your organisation. We have worked with medium and large sized charities, infrastructure organisations, membership organisations, and local authorities to train hundreds of people through in-house training opportunities.

We provide training on a wide range of funding topics, are able to facilitate groups of any size, and cater to different levels of fundraising experience. In-house training courses give you direct access to our insights and expertise, supporting your people to build their fundraising confidence and increase their fundraising success.

As well as delivering bespoke in-house courses we are regularly asked to deliver presentations and facilitate workshops at events and conferences. As independent experts, we are able to provide unique and respected insights from an outside perspective.

Existing courses include:

- **Bid Writing for Charities and Community Groups**
- **Corporate Fundraising**
- **Using Data to Increase Fundraising Success**
- **Trusts and Foundations Fundraising**
- **Bid Writing for Sports and Physical Activities**

Visit getgrants.org.uk/training/ for more info on existing courses.

We are able to adapt any of the above courses to bespoke In-House Training. All of these courses can be delivered online and in-person.

What our attendees say...

"A very helpful day. I came knowing very little about bid writing and left with the confidence to 'just do it', Thank you!"

"Thoroughly enjoyed the mix of attendees and conversations around the room. Course was well presented, obvious thorough knowledge of subject. Look forward to putting new skills to practice."
